Descriptions of areas/courses in number theory

The rapidly increasing population, depleting water resources, and climate change resulting in prolonged droughts and floods have rendered drinking water a competitive resource in many parts of the world. The development of cost-effective and stable materials and methods for providing the fresh water in adequate amounts is the need of the water ...

A Review of Removal of Pollutants from Water/Wastewater

Personality psychology addresses views of human nature and individual differences. Biological and goal-based views of human nature provide an especially useful basis for construing coping; the five-factor model of traits adds a useful set of individual differences.

Personality and Coping | Annual Review of Psychology

Regulatory T lymphocytes are essential to maintain homeostasis of the immune system, limiting the magnitude of effector responses and allowing the establishment of immunological tolerance.

Induced CD4+Foxp3+ Regulatory T Cells in Immune Tolerance

Artwork by Dean Ellis (for The Last Hurrah Of The Golden Horde) There is a nice basic overview of propulsion systems here. You can spend lots of time researching spacecraft propulsion systems.
