A New Genetic Map of Living Humans in Interconnected World

A global city, also called world city or sometimes alpha city or world center, is a city which is a primary node in the global economic network. The concept comes from geography and urban studies, and the idea that globalization is created, facilitated, and enacted in strategic geographic locales according to a hierarchy of importance to the ...

Different poverty levels. Poverty lines shown here include \$1 a day, \$1.25 a day, \$1.45 a day, \$2 a day (typical for many developing countries), \$2.50 a day (which includes a poverty level for some additional countries), and \$10 a day, which a World Bank report referred to if looking at poverty from the level of a wealthy country, such as the US.
