If Other, please type a new section where to add it: URL to file : E-mail: Description of the submit (please also include the working systems, requirements and the source code language) :

### **Bloodshed Software - Compilers resources**

A compiler is a computer program that transforms computer code written in one programming language (the source language) into another programming language (the target language).

### **Compiler - Wikipedia**

Writing A Compiler In Go is the sequel to Writing An Interpreter In Go. It starts right where the first one stopped, with a fully-working, fully-tested Monkey interpreter in hand, connecting both books seamlessly, ready to build a compiler and a virtual machine for Monkey.

Metric spaces for program improvement (pdf, bibtex) Jennifer Hackett and Graham Hutton. In preparation, 2018. Improvement theory is an approach to reasoning about program efficiency that allows inequational proofs of improvement to be written in a similar manner to equational proofs of correctness.

### **Graham Hutton: Publications**

Introduction; Delphi is one of the best programming tools to create software for Windows. With Delphi you can without much effort create small yet powerful Windows applications, which do not need to be installed, do not depend on Active X controls, or special dlls.
